

# ArtinSoft Migration Certification Program

February 2009

## Objectives

---

The **ArtinSoft Migration Certification Program** has the following objectives:

- For individuals, to learn how to migrate a VB6 application to .NET using ArtinSoft's Visual Basic Upgrade Companion (VBUC)
- For organizations, to guarantee their Center of Excellence Team is qualified to execute VB6 to .NET migration projects using ArtinSoft's VBUC

## Target Audience

---

This certification is for Center of Excellence Teams who will be executing VB6 to .NET migration projects using ArtinSoft's VBUC. It is recommended not only for developers, but for project managers and quality assurance coordinators as well.

## Prerequisite Skills

---

The following skills are highly recommended:

- Visual Basic development knowledge
- Visual Basic .NET or C# development knowledge
- General .NET Framework knowledge

## Requirements

---

The following modules must be approved:

- M01: Getting Started with the migration Process
- M02: Fixing Errors, Warnings and Issues
- M03: Upgrading Windows Technologies
- M04: ActiveX Control Lab
- M05: Migration Workshop

## Certification Level

---

Individuals approving the aforementioned requirements will obtain the following certification:

**ArtinSoft Certified Migration Specialist**

This certification is valid for one year
